Dear members of the ISDS and guests.

On behalf of the International Society for Dermatologic Surgery we welcome you to Dubrovnik, Croatia, the site of the 34th Fall meeting of the ISDS. This is a special place in part because of its beauty and vast history (over 13 hundred years old). Nicknamed "The Pearl of the Adriatic" by George Bernard Shaw who proclaimed "If you want to see heaven on earth, come to Dubrovnik." We look forward to enjoying the many aspects of this part of Eastern Europe.

Dr Sadick and colleagues on the scientific committee have assembled a variety of excellent speakers and topics. There will be a nice balance of cosmetic, oncologic and other dermatologic surgery talks and workshops. One of the new additions to the program will be an International Iron Surgery competition which should generate some lively discussions.

The social aspects will include a city tour and dinner at a traditional restaurant in Dubrovnik. Saturday night will conclude with a gala dinner which is usually one of the highlights of the meeting.

Also, offered will be opportunities for a pre and post trips which will provide an opportunity to further explore this unique part of the world.

We look forward to your attendance and participation which will make this another one of the great meetings where we can share ideas and knowledge and friendships.

See you in Croatia.

Henry W Randle MD, PhD  
President of the ISDS

Welcome to the city of Zadar, a city of exceptional history and rich cultural heritage, a city of tourism. Our web site will try to offer you a complete tourist offer, from searching for an ideal accommodation, autochthonous gourmand delicacies, cultural monuments, a variety of excursion programs and numerous tourist activities that the city offers by combining the beauty of the past and all the privileges that the modern traveller demands.

**Plitvice lakes** is the oldest national park in Southeast Europe and largest in Croatia. It is protected under UNESCO World Heritage among first natural sites worldwide.

The national park is world famous for its lakes arranged in cascades. Currently, 16 lakes can be seen from the surface. These lakes are a result of the confluence of several small rivers and subterranean karst rivers. The lakes are all interconnected and follow the water flow.

**Zagreb** is a fascinating destination on its own, combining the best of Eastern and Western Europe. As the political, economic and cultural capital of Croatia, the city throbs with energy but has retained a good deal of old-world graciousness. The sober Austro-Hungarian buildings in the town centre house elegant restaurants and fashionable boutiques along with scruffy pubs and rowdy beer halls.

**PRICE: 680 € per person**

**Price includes:** mini van transportation, driver, guides, 3 lunches, tickets, overnight stays in hotel

The International Society for Dermatologic Surgery was founded in 1978 in response to a need for a world-wide forum for dermatologists who offer surgical treatment to their patients. In addition, the ISDS brings dermasurgeons together, so they may exchange innovative techniques and work for standardization and improvement of training programs in dermatologic surgery. Scientific meetings of the ISDS are held yearly. These world congresses are attended by physicians from as many as 52 countries. The sharing of new surgical procedures, research and statistics is essential in the search for a more effective way to treat skin conditions. Meetings are designed to allow both the beginning and the more advanced surgeon to benefit. A membership certificate will be issued after a Fellow of the ISDS attends two (2) annual meetings.
