Dear friends and colleagues,

It is a great honour to organize the 26th IUSTI-Europe Congress on September 8-10, 2011. It will be co-organized with the 10th BADV Congress. We think this will make a great contribution, bridging and blending several areas of human activities to serve one goal: "Staying alert for sexual health". We invite doctors and scientists from all over the world to attend the 26th IUSTI-Europe Congress. World class speakers and leading medical companies will share their experience in research, diagnosis and treatment of STI, skin and genital diseases. The Congress Scientific Committee with its Chairman Dr. W. I. van der Meijden, the local Organizing Committee, IUSTI-Europe and BADV board will do their best to insure that the Congress will be at the top scientific level, addressing new issues and areas of sexual health.

Welcome to Riga!

Prof. Dr. hab. med. Andris Y. Rubins
Congress President
